

#### บริษัท อาร์ ซี แอล จำกัด (มหาชน) Regional Container Lines Public Company Limited

#### Press Release for Financial Results as at 31 March 2020

RCL recorded a THB 22 Mil increase in revenue to THB 4,267 Mil in Q1 2020, compared with THB 4,245 Mil the same period in the preceding year. Notwithstanding a lower volume handled from Q1 2019 by 12% to 489,000TEUs, we were able to secure shipment at a noticeably improved freight income per TEU, combined with a favorable increase of gain from the exchange rate, which helped mitigate the impact from lower volume as demand for good and service plunged as a result of an extended Chinese New Year holidays and a lock down of cities as the Chinese government tried to contain the COVID-19. This factor added a significant disruption to the market which had already been damaged by the prolong trade war between U.S. and China.

Total expense in Q1 2020 reduced by THB 25.6 Mil from THB 4,210 Mil in the same period last year to THB 4,184 Mil. The reduction was mainly as a result of lower cost of freight and operation, which fell by 1% quarter on quarter to THB 3,938 Mil, consistent with a lower shipment volume. Following changes in the market, RCL reduced the number of sailings to adjust its supply level and to save cost of bunker. With the actions taken, we were able to put a break on the bunker cost which would have been inevitably increased by the IMO 2020 regulation implementation since the beginning of 2020.

Because of the above external factors which caused the unpredictable disruptions to the industry and internal actions taken, RCL group was able to report a net profit of THB 12.7 Mil in Q1 of 2020 compared with a net loss of THB 28.4 Mil in the same period last year.

14 May 2020

Founded in 1979, RCL is a Thai based container shipping line. Listed on the Thai Stock Exchange since 1988, its core business is in the carriage of Shipper owned containers (SOC) and its own Carrier container containers (COC) in a service network that is fully Asia centric. RCL currently owns and operates a fleet of 46 vessels with sizes ranging between 200 TEUs and 6621 TEUs. It also has a fleet of 108,543 TEUs to support its own COC carriage as well. RCL operates a network of 69 offices made up of both owned and agency partner offices to support its operations. Today, RCL is recognised as amongst the leading SOC and Intra Asian operator by both peers and customers alike

# INTERIM FINANCIAL STATEMENTS FOR THE THREE - MONTH PERIOD ENDED MARCH 31, 2020

AND

INDEPENDENT AUDITOR'S REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

EXPRESSED IN

THAI BAHT

#### A. M. T. & Associates

สำนักงาน เอ. เอ็ม. ที่. แอสโซซิเอท

Accounting Management & Tax Services 491/27 Silom Plaza, Silom Road, Bangruk, Bangkok 10500, Thailand. Tel: +66 (0) 2234-1676, 2234-1678, 2237-2132 ● Fax: +66 (0) 2237-2133

#### INDEPENDENT AUDITOR'S REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

#### To The Shareholders and Board of Directors of Regional Container Lines Public Company Limited

(1) I have reviewed the accompanying consolidated statement of financial position of Regional Container Lines Public Company Limited and its subsidiaries as of March 31, 2020, the related consolidated statements of changes in equity, income, comprehensive income and cash flows for the three - month period ended March 31, 2020, as well as the condensed notes to the consolidated financial statements, and I have also reviewed the separate financial information for the same period of Regional Container Lines Public Company Limited. Management is responsible for the preparation and presentation of this interim financial information in accordance with Accounting Standard 34 "Interim Financial Reporting" My responsibility is to express a conclusion on this interim financial information based on my reviews.

#### Scope of review

(2) I conducted my reviews in accordance with Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

#### Conclusion

(3) Based on my reviews, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Accounting Standard 34 "Interim Financial Reporting".

#### Other matter

- (4.1) The consolidated interim financial statement of Regional Container Lines Public Company Limited and its subsidiaries and the interim separate financial statement of Regional Container Lines Public Company Limited for the three month period ended March 31, 2019, presented herein for comparison, were reviewed by another auditor in my office, in accordance with Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" and he drew a conclusion from the review under his report dated May 10, 2019 that nothing had come to his attention that caused his to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Accounting Standard 34 (revised 2018), "Interim Financial Reporting".
- (4.2) The consolidated statement of financial position of Regional Container Lines Public Company Limited and its subsidiaries and the separate statement of financial position of Regional Container Lines Public Company Limited as of December 31, 2019, presented herein for comparison, have been derived from such financial statements, which audited by another auditor in my office and reported in accordance with Standards on Auditing and expressed an unqualified opinion in his report dated February 21, 2020. I have not performed any other audit procedures subsequent such report date.

# Regional Container Lines Public Company Limited and its subsidiaries Notes to interim financial statements For the three - month period ended 31 March 2020

#### 1. General information

#### 1.1 General matter

Regional Container Lines Public Company Limited ("the Company") was incorporated as a public limited company under Thai laws. The Company operates its business in Thailand and other countries in South China Sea and its principal activity is in the business of international vessel operations. The Company's registered address is 127/35 Ratchadapisek Road, Chongnonsi, Yannawa, Bangkok.

#### 1.2 Coronavirus disease 2019 Pandemic

The Coronavirus disease 2019 (COVID-19) pandemic is continuing to evolve, resulting in an economic slowdown and adversely impacting most businesses and industries. This situation may bring uncertainties and have an impact on the environment in which the group operates. Nevertheless, the Group's management will continue to monitor the ongoing developments and regularly assess the financial impact in respect of the valuation of assets, provisions and contingent liabilities, and has used estimates and judgement in respect of various issues as the situation has evolved.

#### 1.3 Basis for the preparation of the interim financial statements

These interim financial statements are prepared in accordance with Accounting Standards No. 34 "Interim Financial Reporting", with the Company choosing to present condensed interim financial statements. However, the Company has presented the statements of financial position, changes in shareholders' equity, income, comprehensive income and cash flows in the same format as that used for the annual financial statements.

These interim financial statements are presented in Thai Baht which is different from the functional currency of the Company, which is US Dollar. The presentation is in Thai Baht in accordance with the regulatory requirements in Thailand.

The USD functional currency interim financial statements are translated into the Thai Baht presentation currency financial statements at the rate of exchange prevailing at the end of reporting period in respect of assets and liabilities, and the transactions in the income statements and statements of comprehensive income are translated at the average exchange rates of each period, differences being recorded as "Exchange differences on translating financial statement" in other comprehensive income, other component of shareholders' equity.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statement should therefore be read in conjunction with the financial statements for the year ended 31 December 2019.

An English language version of the interim financial statements has been prepared from the statutory interim financial statements that were issued in Thai language. In case of conflict or difference in understanding, the interim financial statements in Thai language shall prevail.

Mr.S Director DIRECTOR

Mr.Sutep Tranantasin
Director
Director
DIRECTOR

#### 1.4 Basis of consolidation

These interim consolidated financial statements include the financial statements of Regional Container Lines Public Company Limited and its subsidiaries ("the Group") and have been prepared on the same basis as that applied for the consolidated financial statements for the year ended 31 December 2019.

#### 1.5 Financial Reporting Standards which are effective in the current period

During the period, the Group has adopted the revised and new financial reporting standards and interpretations which are effective for fiscal years beginning on or after 1 January 2020. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards. The adoption of these financial reporting standards does not have any significant impact on the Group's financial statements. However, the new standard involves changes to key principles, which are summarised below:

#### 1.5.1 Financial Reporting Standards related to financial instruments

A set of TFRSs related to financial instruments consists of five accounting standards and interpretations, as follows:

Accounting Standard

TAS 32 Financial Instruments: Presentation

Financial Reporting Standards

TFRS 7 Financial Instruments: Disclosures

TFRS 9 Financial Instruments

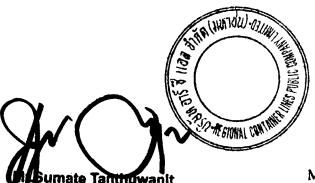

Financial Reporting Standard Interpretations

TFRIC 16 Hedges of a Net Investment in a Foreign Operation

TFRIC 19 Extinguishing Financial Liabilities with Equity Instruments

These TFRSs related to financial instruments make stipulations relating to the classification of financial instruments and their measurement at fair value or amortised cost (taking into account the type of instrument, the characteristics of the contractual cash flows and the Company's business model), calculation of impairment using the expected credit loss method, and hedge accounting. These include stipulations regarding the presentation and disclosure of financial instruments.

The Group adopted these financial reporting standards which the cumulative effect of initially applying is recognised as an adjustment to the retained earnings as of 1 January 2020, and the comparative information was not restated. The cumulative effect of the change is described in Note 3.1 to the interim financial statements.

#### 1.5.2 TFRS 16 "Leases"

TFRS 16 supersedes TAS 17 Leases together with related Interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases, and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is low value.

Accounting by lessors under TFRS 16 is substantially unchanged from TAS 17. Lessors will continue to classify leases as either operating or finance leases.

The Group adopted these financial reporting standards using the modified retrospective method of initial adoption of which the cumulative effect is recognised as an adjustment to the retained earnings as of 1 January 2020, and the comparative information was not restated. The cumulative effect of the change is described in Note 3.2 to the interim financial statements.

1.5.3 Accounting Treatment Guidance on "Temporary relief measures on accounting alternatives in response to the impact of the COVID-19 situation"

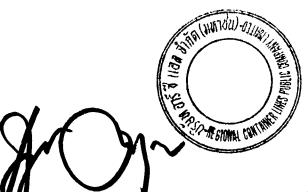

The Federation of Accounting Professions announced Accounting Treatment Guidance on "Temporary relief measures on accounting alternatives in response to the impact of the COVID-19 situation". Its objectives are to alleviate some of the impact of applying certain financial reporting standards, and to provide clarification about accounting treatments during the period of uncertainty relating to this situation.

On 22 April 2020, the Accounting Treatment Guidance was announced in the Royal Gazette and it is effective for the financial statements prepared for reporting periods ending between 1 January 2020 and 31 December 2020.

The Group has elected to apply the following temporary relief measures on accounting alternatives as follows:

#### Financial Reporting Standards No 9: Financial Instrument

- Not to take into forward-looking information using in measurement of expected credit loss for a simplified approach.
- Use the fair value as at 1 January 2020 for measurement of investment in non-marketable equity which cost is an appropriate estimate of fair value.

mate Tanthuwanit
Director
DIRECTOR .....

Mr. Sutep Tranantasin
Director
DIRECTOR

#### 2. Significant accounting policies

The interim financial information is prepared by using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2019 except the changes in accounting policies related to financial instruments and leases as follows:

#### 2.1 Financial instruments

#### Classification and measurement

Financial assets that are debt instruments are measured at amortised cost.

Financial assets which are the equity instruments are measured at fair value through profit or loss. Equity securities which intends to hold for the long-term strategic purposes are measured at fair value through other comprehensive income. The accumulated gain (loss) on measurement of these investments will not be reclassified to profit or loss.

Financial liabilities are classified and measured at amortised cost.

Derivatives are classified and measured at fair value through profit or loss.

#### Impairment of financial assets

The Group assesses on a forward-looking basis the expected credit loss associated with its financial assets measured at amortised cost. The Group applies general or simplified approach for credit-impaired consideration which depends on the significant of credit risk.

#### Initial adoption

The Group adopted these financial reporting standards which the cumulative effect of initially applying is recognised as an adjustment to the retained earnings as of 1 January 2020, and the comparative information was not restated. The cumulative effect of the change is described in Note 3.1 to the interim financial statements.

#### 2.2 Leases

At inception of contact, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### The Group as lessee

#### Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease. Right-of-use assets are stated at cost, less any accumulated depreciation and impairment losses (if any), and adjusted for any remeasurement of lease liabilities (if any). The cost of right-of-use assets includes the amount of lease liabilities recognised through initial measurement, initial direct costs incurred, and lease payments made at or before the commencement date, less any lease incentives received.

The cost of right-of-use assets also includes an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Unless the Group is reasonably certain that it will obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis from the commencement date of the lease to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

Mr. Director DIRECTOR

Mr.Sutep Tranantasin
Director
Director

#### Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the interest rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate. The lease liabilities are subsequently measured using the effective interest method and by reducing the carrying amount to reflect the lease payments made. The Group recognizes interest from lease liability in the statement of income. In addition, the carrying amount of lease liabilities is remeasured if there is a modification or reassessment.

Lease payments included in the measurement of the lease liability comprise:

- Fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- Amount expected to be payable by the lessee under residual value guarantees;
- Exercise price of purchase options, if the lease is reasonably certain to exercise the options; and
- Payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

#### Short-term leases and Leases of low-value assets

Payments under leases that, have a lease term of 12 months or less at the commencement date, or are leases of low-value assets, are recognised as expenses on a straight-line basis over the lease term.

#### The Group as lessor

The Group classifies each of its leases as either a finance lease or an operating lease.

To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

The Group recognizes lease payments received under operating leases as income on a straight-line basis over the lease term.

#### Sub lease

When the Group is an intermediate lessor, it accounts for its interests in the head lease and sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-ofuse asset arising from the head lease, not with reference to underlying asset. If a head lease is a shortterm lease to which the Group apply the exemption described in "Short-term leases and leases of lowvalue asset, then it classifies the sub-lease as an operating lease.

The Group as an intermediate lessor accounts for the sublease as follows:

- If the sublease is classified as an operating lease, the Group continues to account for the lease liability and right-of-use asset on the head lease like any other lease; or
- If the sublease is classified as a finance lease, the Group derecognise the right-of-use asset on the head lease at the sublease commencement date and continue to account for the original lease liability in the head lease.

#### Initial adoption

The Group adopted these financial reporting standards using the modified retrospective method of initial adoption of which the cumulative effect is recognised as an adjustment to the retained as of I January 2020, and the comparative information was not restated. The cumulative effect of a soft January 2020 and the comparative information was not restated. (2)g eriber in Note 3.2 to the interim financial statements. hange is d

Mr. Sutep Tranantasin Director Director DIRECTOR .....

#### 3. Effect of change in accounting policy due to the adoption of new financial reporting standard

As described in Note 1.5 to the interim financial statements, during the current period, the Group has adopted financial reporting standard related to financial instruments and TFRS 16. The cumulative effect of initially applying this standard is recognised as an adjustment to retained earnings as of 1 January 2020. Therefore, the comparative information was not restated. The impacts on the financial statement from changes in accounting policies due to the adoption of these standards are presented as follows:

#### 3.1 Group of Financial Instruments Standards

The Group has adopted financial reporting standard related to financial instruments as described in Note 1.5.1 to the interim financial statements which have the material impact for the classification of financial assets as follows:

(Unit: Thousand Baht)

		Consolidated	d financial statements	
	Classification under previous standards as at 31 December 2019	Reclassifications	Classification under TFRS 9 as at 1 January 2020	Category
Assets				
Other long - term investments	10,248	(10,248)	-	
Other non - current				
financial assets				
- Non-marketable equity securities	-	10,248	10,248	Financial asset measured at fair value through other comprehensive income
Liabilities				
Other current liabilities	129,896	(6,623)	123,273	
Other non-current financial liabilities				
- Derivatives	-	6,623	6,623	Financial liabilities measured at fair value through profit or loss

Besides, other financial assets and liabilities of the Group are measured at amortized cost.

#### 3.2 TFRS 16 "Leases"

The Group has adopted TFRS16 "Leases" as described in Note 1.5.2 to the interim financial statements as follows:

- The Group recognised a right of use and a lease liability previously classified as an operating lease at the present value of the remaining lease payments, discounted using the Group's incremental borrowing rate at the date of initial application (as of 1 January 2020). Therefore, the comparative information, which presented based on TAS 17, was not restated. The Group recognised the carrying amount of the right-of-use assets and lease liabilities, previously classified as financial leases, based on the carrying amounts of the lease assets and lease liabilities immediately before the date of initial application of TFRS 16.
- Payments under leases that, have a lease term of 12 months or less at the commencement date, or are leases of low-value assets, are recognised as expenses on a straight-line basis over the lease term.

Mr.Sutep Tranantasin
Director
DIRECTOR

Therefore the impacts from adoption of this standard at the date of initial application (as of 1 January 2020) as following:

		(Unit: Thousand Baht)
	Consolidated	Separate
	financial statement	financial statement
Assets Increase in right - of - use assets	1,700,193	11,789
Increase in allowance for impairment of right - of - use assets  Decrease in vessels and equipment, net	(43,248) (1,442,088)	- -
Decrease in vessers and equipment, not	214,857	11,789
<u>Liabilities</u> Increase in lease liabilities Increase in deferred interest expenses	281,709 (23,604)	12,857 (1,068)
Decrease in provision for onerous contracts	(43,248) 214,857	11,789

#### 4. Change in accounting estimation

During the current period, the Group changed the estimated residual value of the vessels. This change was made so that the residual value of the vessels would approximate market value. The effect of the change is to increase net income of the Group and the Company for the three - month period ended 31 March 2020 by Baht 18.8 million and Baht 6.5 million, respectively (Baht 0.023 per share and Baht 0.008 per share, respectively).

#### 5. Trade receivables

The balances of trade receivables - unrelated parties are classified by aging as follows:

	a	P 1 4 . 1	Separate		
	Conso	lidated	•		
	financial s	statements	financial s	statements	
	As at As at		As at	As at

#### 15. Debenture

At the Annual General Meeting of Shareholders held on 24 April 2015, the shareholders approved issue and offer debentures not exceeding Baht 3,000 million and not longer than 7 years from the date of each issuance. The terms and conditions of the debentures shall be determined by the Board of Directors. Currently, the Company has not issued and offered the said debentures.

#### 16. Provisions for employee benefits

- Movement in the present value of the provisions for employee benefits for the three - month periods ended 31 March 2020 and 2019 are as follows:

			(Unit: M	Iillion Baht)
	Consol	idated	Sepa	rate
	financial s	tatements	financial s	tatements
	2020	2019	2020	2019
Provisions for employee benefits at beginning of periods	51.15	35.12	46.90	31.93
Current service cost and interest	2.60	1.71	2.39	1.59
Benefits paid	(2.81)		(2.81)	
Provisions for employee benefits at end of periods	50.94	36.83	46.48	33.52

- Expenses recognized in the statements of income for the three - month periods ended 31 March 2020 and 2019 are as follows:

SION CHIMINE

Mr.Sutep Tranantasia O DIRECTOR

Principal actuarial assumptions as at 31 March 2020 and 31 December 2019 are as follows:

	Per	cent
	Consolidated	Separate
	financial statements	financial statements
Discount rate	2.81	2.81
Salary increase rate	5 - 6.00	6.00
Employee turnover rate	0 - 24.00*	2 - 24.00*
Mortality rate	TMO2017**	TMO2017**

- Based on the weighted average by age group of employees
- Reference from TMO2017: Thai Mortality Ordinary Table of 2017
- Sensitivity analysis of significant actuarial assumptions

Significant actuarial assumptions for sensitivity analysis are discount rate, salary increase rate, employee turnover rate and mortality, while holding all other assumptions constant. The sensitivity analysis of change in the relevant actuarial assumption that were reasonably possible as of 31 March 2020 as follows:

- If the discount rate increases (decrease) by 1%, the provisions for employee benefits in Consolidated financial statements would decrease Baht 1.23 million (increase Baht 1.40 million) and Separate financial statements would decrease Baht 1.12 million (increase Baht 1.28 million).
- If the salary increase rate increases (decrease) by 1%, the provisions for employee benefits in Consolidated financial statements would increase Baht 1.86 million (decrease Baht 1.62 million) and Separate financial statements would increase Baht 1.69 million (decrease Baht 1.47 million).
- If the employee turnover rate increases (decrease) by 10%, the provisions for employee benefits in Consolidated financial statements would decrease Bath 0.57 million (increase Bath 0.63 million) and Separate financial statements would decrease Baht 0.54 million (increase Baht 0.59 million).
- If the life expectancy increases (decrease) by one year for all employees, the provisions for employee benefits in Consolidated financial statements would increase Baht 0.06 million (decrease Baht 0.05 million) and Separate financial statements would increase Baht 0.05 million (decrease Baht 0.05 million).

In presenting the above sensitivity analysis, the present value of the provisions for employee benefits has been calculated by using the same method that applied in calculating the provisions for employee benefits recognized in the statement of financial position.

On 5 May 2019, the Company and a subsidiary in Thailand have amended its post-employment benefits plan to conform with Labour Protection Act which the main point is to increase the rate of benefit of an employee who has past service 20 years or more from 300 days to 400 days. The Company and a subsidiary in Thailand have recorded the effect of the change by recognizing past service cost as expenses immediately in the 2<sup>nd</sup> quarter income statement of the year 2019 amounted to Baht 9.13 million (The Company: Baht 8.31 million).

#### c) Management and directors benefit expenses

Management and directors benefit expenses consist the benefits paid to the Company's management and directors such as salaries and related benefit including the benefit paid by other means. The Company's management are the persons who are defined under the Securities and Exchange.

Management and directors benefit expenses for the three - month periods ended 31 March 2020 and 2019 are as follows:

(Unit: Million Baht)

	Consolidated fin	ancial statements	Separate finan	cial statements
	2020	2019	2020	2019
Short - term employee benefits	10	11	6	7

#### 18. Tax expenses

The Company has been granted various tax privileges by the Board of Investment under the Investment Promotion Act. B.E. 2520. These include exemption from corporate income tax on profits for a period of 8 years for certain operations. In addition, since 1999 shipping profits have been exempted from income tax.

The corporate income tax rate being used by the Company and its subsidiaries in Thailand 20% on the net income of those operations which are not eligible for the above tax exemption.

Corporate income tax of the overseas subsidiaries and associate has been calculated by applying the applicable statutory rates of the relevant countries.

As at 31 March 2020 and 31 December 2019 the Group has deductible temporary differences, temporary differences arising from exchange difference occurring while translating financial statements in functional currency into presentation currency, provisions for employee benefits and unused tax losses totaling Baht 169.71 million and Baht 329.64 million, respectively, (Separate Baht 96.44 million and Baht 114.47 million, respectively). However, the Group did not recognize deferred tax assets as the Group believes that it is not probable that future taxable profit will be available to allow the entire deferred tax assets to be utilized including almost income of the Group being exempted from income tax, except a subsidiary in Thailand which recognized deferred tax assets amounted Baht 3.83 million and Baht 3.79 million, respectively.

Sumate Tanthuwanit Mr.S
Director DIRECTOR

Mr.Sutep Tranantasin O Director DIRECTOR

Tax expense (income) for the three - month periods ended 31 March 2020 and 2019, consisted of:

Current tax expense

Deferred tax expense (income) of temporary differences

Tax expense (income) reported in the statement of income

As at 31 March 2020 and 31 December 2019, the components of deferred tax assets and liabilities are as follows:

#### 20. Commitments and contingent liabilities

#### 20.1 Commitments

(a) As at 31 March 2020, the Company and its subsidiary in Thailand have outstanding commitments relating to the lease agreements for service of approximately Baht 5 million in respect of lease agreements, and subsidiaries in Singapore has outstanding commitments of USD 20 million or approximately Baht 656 million in respect of the following agreements.

(Unit: Million Baht) Total Other rental Charter hire Payment period 655 2 653 Within 1 year 1 1 During 1 - 5 years Over than 5 years 656 653 Total

As at 31 March 2020, the Group had no obligations under operating lease agreements as a result of the adoption of the TFRS 16 as at 1 January 2020. Therefore the Group recognised the lease liabilities previously classified as operating lease at the present value of the remaining lease payments, discounted using the Group's incremental borrowing rate, as described in Note 14 to the interim financial statements.

- (b) As at 31 March 2020, a subsidiary in Singapore has bunker purchase commitments amounting to USD 2.7 million or approximately Baht 89.5 million covering the period of April 2020 at 6,000 MT (As at 31 December 2019, a subsidiary in Singapore has bunker purchase commitments amounting to USD 5 million or approximately Baht 151.5 million covering the period January 2020 at 9,000 MT).
- (c) As at 31 March 2020, the Company and the Group has sulphur scrubber purchase commitments amounting to USD 5.6 million or approximately Baht 185.3 million.

#### 20.2 Guarantees

As at 31 March 2020, the Company has guarantee obligations of USD 121 million, SGD 6 million and HKD 35 million, or approximately Baht 4,244 million (31 December 2019: USD 122 million, SGD 6 million and HKD 35 million or approximately Baht 3,971 million). These guarantees were issued to secure credit lines of overseas subsidiaries from financial institutions. The subsidiaries have outstanding guarantees totaling USD 32 million and HKD 12 million, or approximately Baht 1,101 million (31 December 2019: USD 33 million and HKD 13 million, or approximately Baht 1,071 million).

inuwanit Mr. Sutep Tranants in Director

#### 21. Financial instruments

The Group could be exposed to the market risk, including primarily changes in interest rates and currency exchange rates. The Group uses derivatives and other instruments to manage and hedge such risk but not for speculative or trading purposes.

#### 21.1 Financial risk management

The Group's financial instruments principally comprise cash and cash equivalents, trade receivables, trade payables, and loans. The financial risks associated with these financial instruments and how they are managed is described below.

#### (1) Credit risk

Credit risk arises from the inability of customers to meet the payment terms in the normal course of business. Credit limits are set for specific amounts and due care is taken in granting credit. Furthermore, it is the Group's policy to evaluate customer's credit worthiness based on its latest financial performance. Therefore, the Group does not anticipate incurring material credit losses from its debt collection.

#### (2) Interest rate risk

The Group could be exposed to risk in interest rates due primarily to the Group's long - term loan obligations. However, derivative and other financial instrument hedging are used for its long - term loan interest obligations.

The Group's policy is to manage its interest cost using a mix of fixed and variable interest rate debt. To manage this mix in a cost - efficient manner, the Group enters into interest rate swaps in which the Group agrees to exchange at specific intervals, the difference between fixed and variable interest amounts calculated by reference to an agreed - upon notional principal amount. These swaps are designated to hedge underlying debt obligations at the statements of financial position date. The Group does not hold or issue derivative instruments for speculative or trading purposes.

As at 31 March 2020, the Company had a period - by - period knock out swap and interest rate swap agreement covering the notional 2 promise amount of USD 11.40 million (31 December 2019: 2 promise of amount USD 12.79 million), an interest rate of LIBOR is to be swapped for a fixed interest rate, with the notional amount base used for determination of the interest to be amortized at a rate of USD 1.38 million per quarter, the contracts expiration date is the year 2021 and 2023.

For the three - month period ended 31 March 2020, the Company had unrealized gain (loss) from changes in the fair value of derivatives (loss) of USD 0.16 million, or approximately Baht 4.90 million (31 March 2019: gain of USD 0.11 million, or approximately Baht 3.55 million). The Company recorded the unrealized gain (loss) in the statements of income.

..... DIRECTOR .......

Mr. Sutep Tranantasin

Director

DIRECTOR

#### (3) Foreign currency risk

The Group business spans across the Asian region and, as a result, is exposed to foreign currency exchange rates. For that reason, the freight charges are prices in US dollars and payable in local currency equivalents, a natural foreign currency hedge is created by matching the currency of income flow (linked to US dollars) to the currency of indebtedness. This mechanism functions as a key factor for the Group's ability to manage its foreign exchange exposures. Most of the loans extended to the Group, are thus denominated in currencies similar to that of its income flow. In addition, the Group uses derivative instruments, as and when it considers appropriate, to manage such risks. The Group does not use foreign currency forward contracts or purchased currency options for trading purposes.

In addition to foreign currency transactional exposures, the Group is also exposed to foreign exchange movements on its net investment in foreign subsidiaries. As at 31 March 2020 and 31 December 2019, the Group does not hedge such exposures to foreign movement risk as it is minimal.

Whenever possible, it is the Group's policy to negotiate the terms of the hedged derivatives to match the terms of the hedged financial assets or liabilities item to maximise hedge effectiveness.

#### (4) Commodity price risk

Bunker cost represents a major component of the operational costs of a subsidiary in Singapore. Hence the said subsidiary is exposed to bunker price fluctuations. As at 31 March 2020, a subsidiary in Singapore has taken protection against the higher price risk with the physical bunker forward purchase contract within the certain limit in accordance with the Group's policy. The physical bunker forward purchase policy which blends interval forward with spot purchase has provide the Group with a less risk exposure to bunker price. And a subsidiary has outstanding commitments under the above purchase contract as described in note 20.1 (b) to the interim financial statements.

#### 21.2 Fair value

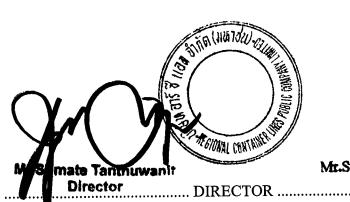

Other than the long - term loans, which carry interest at rates which closely approximate market interest rates, the majority of financial assets and liabilities are short - term, and their carrying values do not materially differ from their fair values.

#### 22. Capital management

The primary objective of the Company's capital management is to ensure that it has an appropriate financial structure and preserves the ability to continue its business as a going concern.

The Company manages its capital position with reference to its debt - to - equity ratio also to comply with a condition in the long - term loan agreements, which require the Company to maintain a consolidated debt - to - equity ratio of not more than 1.5: 1.

As at 31 March 2020, the Group's debt - to - equity ratio was 1.32:1 (31 December 2019: 1.30: 1) and the Company's was 1.07:1 (31 December 2019: 1.03: 1).
