

บริษัท อาร์ ซี แอล จำกัด (มหาชน) Regional Container Lines Public Company Limited

Press Release for Financial Results 30 June 2023

In the second quarter of 2023, the container shipping industry continued to encounter various challenges not only a slow-down in the global economy, particularly in the United States and Europe, but also high-interest rates which cause a decrease in consumption demand and purchasing power, which negatively impacted on the contracted volume of shipment of commodities accordingly. Concurrently, the number of vessels in the market has increased from newly built vessels during the COVID-19 pandemic which cause the significant and continuous decline in average freight rates commencing from the latter half of 2022. In addition, the Shanghai Containerized Freight Index (SCFI) reported an average third-quarter freight rate of \$3,279 per TEU in 2022 and dropped to \$984 per TEU during the second quarter of 2023.

Amid the challenging situations, Regional Container Lines Public Company Limited (the “Company” or “RCL”) was able to record its net profit for the first six months of 2023 at THB 1,489 million. For the second quarter of 2023, the net profit was THB 576 million, representing a decrease of THB 337 million or 37% compared to the previous quarter wherein a net profit of THB 913 million was achieved. The decline in 6% of total revenue was mainly attributed to the decrease in freight rates of 10% whereas total lifting increased only 2% when compared to the first quarter of 2023. Furthermore, freight rates dropped from \$394 per TEU in the first quarter of 2023 to \$353 per TEU in the second quarter of 2023, driven by high competition after the market returns to normal and the lower time charter rates, especially for small vessels.

In addition to the aforementioned factors, there were other adverse factors which affected the container shipping market, including the slower economic growth experienced in China, post-pandemic recovery. Moreover, elevated bunker prices and interest rates further compounded the challenges faced by the industry.

However, the Company executed the cost-conscious measures and was successful with reefer container business as well as entered into the agreement to sell two old vessels with the age over 25 years, which will be delivered to the buyers within the third quarter this year, in order to improve the Company’s fleet efficiency as it is

anticipated that the old vessels will be depreciated further in the future. In the meantime, the Company is actively seeking the opportune timing and favourable pricing to further replace its aging vessels. As highlighted through the aforementioned endeavours, the Company managed to achieve a net profit of THB 1,489 million.

Furthermore, the Company is pleased to inform that the Board of Directors in its Meeting No. 4/2023 on August 11th, 2023 resolved to approve the interim dividend payment at 0.25 Baht per share for six month period of operating results of 2023. The Record Date for shareholders who have the right to receive interim dividend is on August 25th, 2023 and the dividend payment date is set to be on September 8th, 2023. The aforementioned dividend payout was considered by the Board of Directors in connection with the future asset investment plans, aimed at enhancing fleet efficiency and aligning with the Company's strategies and business plans.

Lastly, please be informed that on June 21st, 2023, the Company had a naming ceremony for a 1,930 TEUs vessel, named Nattha Bhum. The vessel is a Bangkok Max carrier, which is the largest size permitted to enter the Chao Phraya River and equipped with modern technology, thereby ensuring compliance with the regulations stipulated by the International Maritime Organization (IMO) as well as the Company's Environment, Social, and Governance (ESG) policy. Moreover, the Company has been honored with the "Best Company of the Year 2023 - Service Industry" Award from the Money & Banking Magazine for the second consecutive year. The award is bestowed upon those companies listed in the Stock Exchange of Thailand, recognized for their exceptional overall performance throughout the year 2022.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. Based on my reviews, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Accounting Standard 34 "Interim Financial Reporting".

- Principal actuarial assumptions as at 30 June 2023 and 31 December 2022 are as follows:

	Percent	
	Consolidated financial statements	Separate financial statements
Discount rate	1.59 - 3.10	2.98
Salary increase rate	3 - 7.00	4 - 7.00
Employee turnover rate	0 - 27.00*	0 - 27.00*
Mortality rate	TMO2017**	TMO2017**

* Based on the weighted average by age group of employees

** Reference from TMO2017 : Thai Mortality Ordinary Table of 2017

- Sensitivity analysis of significant actuarial assumptions

Significant actuarial assumptions for sensitivity analysis are discount rate, salary increase rate, employee turnover rate and mortality, while holding all other assumptions constant. The sensitivity analysis of change in the relevant actuarial assumption that were reasonably possible as at 30 June 2023 as follows:

- If the discount rate increases (decrease) by 1%, the provisions for employee benefits in Consolidated financial statements would decrease Baht 2.77 million (increase Baht 3.18 million) and Separate financial statements would decrease Baht 1.35 million (increase Baht 1.55 million).
- If the salary increase rate increases (decrease) by 1%, the provisions for employee benefits in Consolidated financial statements would increase Baht 3.68 million (decrease Baht 3.24 million) and Separate financial statements would increase Baht 1.79 million (decrease Baht 1.59 million).
- If the employee turnover rate increases (decrease) by 10%, the provisions for employee benefits in Consolidated financial statements would decrease Baht 0.88 million (increase Baht 0.98 million) and Separate financial statements would decrease Baht 0.45 million (increase Baht 0.50 million).
- If the life expectancy increases (decrease) by one year for all employees, the provisions for employee benefits in Consolidated financial statements would increase Baht 0.12 million (decrease Baht 0.13 million) and Separate financial statements would increase Baht 0.06 million (decrease Baht 0.07 million).

In presenting the above sensitivity analysis, the present value of the provisions for employee benefits has been calculated by using the same method that applied in calculating the provisions for employee benefits recognized in the statement of financial position.
